List of SITRAIN Courses with "Buy 1 Take 1 Promo"

Course Name	Description	Training Date	Buy 1 Price SGD	Take 1	Promotion Code
SIMATIC S7-300 Maintenance (Basic)	This course teaches the basic knowledge of the design of automation systems, the configuration and parameterization of the hardware, handling with the STEP 7 Basis Software and the fundamentals of programming. It also covers human machine interfacing, PROFIBUS DP and the integration of drives.	2 - 4 December 2015 (3 Days)	\$1,275	Free	STP1512-01
SIMATIC S7-300 Programming (Intermediate)	This course aims at users with engineering tasks who want to become familiar with the expanded programming facilities of SIMATIC S7. You get an overview of human machine interfacing, PROFIBUS DP and the integration of drives.	14 - 18 December 2015 (5 Days)	\$1,275	Free	STP1512-01
SIMATIC S7-300 Maintenance (Basic)	This course teaches the basic knowledge of the design of automation systems, the configuration and parameterization of the hardware, handling with the STEP 7 Basis Software and the fundamentals of programming. It also covers human machine interfacing, PROFIBUS DP and the integration of drives.	12 - 14 January 2016 (3 Days)	\$1,275	Free	STP1512-01
TIA Portal SIMATIC Programming 1 (Basic)	This course will teach you the handling of TIA Portal, basic knowledge about the structure of the SIMATIC S7 automation system, configuration and parameterization of hardware, and the basic of standard PLC programming. You will also get an overview of HMI and PROFINET IO.	26 - 29 January 2016 (4 Days)	\$1,800	Free	STP1512-01
SIMATIC PCS7 (Service)	This course target at personnel whose activities focus on the service and maintenance of plants with PCS7 control systems. The emphasis here is on the process-level components AS, I/O systems and system bus. The course equips you with the knowledge of the integrated nature of the system. Thus, you will be able to quickly diagnose and correct faults and to remove possible fault sources in advance.	11 - 15 January 2016 (5 Days)	\$2,050	Free	STP1512-01
SINAMICS S120 Service and Commissioning	This course encompasses the basics of the SINAMICS S120 drive system. It provides the technical knowledge required for startup, parameterization, drive optimization, and troubleshooting.	18 - 22 January 2016 (5 Days)	\$2,050	Free	STP1512-01
